ALTEN SWEDEN AB SIGNS NEW FRAME AGREEMENT WITH CHALMERS UNIVERSITY OF TECHNOLOGY AB

ALTEN Sweden was awarded contract when Chalmers University of Technology AB's invited tenders within the area of IT-services. The agreement is a result of ALTEN's strategic venture in growing within IT during 2018.

ALTEN Sweden won the trust to deliver IT-competence within system development and system management to Chalmers University of Technology AB. The agreement is valid for four years starting on March 1, 2019. As a result of the signed agreement, ALTEN expects an increased need of competence and recruitments in the Gothenburg area during 2019.

- It is gratifying that our efforts to broaden and strengthen our offering by growing within IT has been fruitful. A clear sign that our broad offering is of very high quality is that ALTEN as a very strong player within the Automotive industry, at the same time, can offer IT-services in the public sector, says CEO Martin Segerstrom at ALTEN Sweden.

ALTEN has been established in Sweden since November of 2008 and is today one of the largest companies Europe within technology and IT consulting. ALTEN is present in 20 countries, with its headquarters in Paris, has over 28 000 employees and consists of 88 % engineers. In Sweden, ALTEN has 1700 employees and office in ten different locations. In Sweden, the majority of ALTEN's customers are within the automobile-, telecom-, defense-, energy- and the life science industries where ALTEN is active throughout the development chain.
