

ALTEN SWEDEN AB IS SIGNING A FRAME AGREEMENT WITH VÄDERSTAD AB

ALTEN Sweden's collaboration with the family business Väderstad AB has resulted in a frame agreement which entails increasing opportunities for ALTEN's business in Linköping and surrounded areas.

Väderstad AB has since 1962 developed and produced highly efficient agricultural machines and methods for seed preparation and sowing to simplify the daily work for farmers in about 40 different countries.

The frame agreement between ALTEN Sweden AB and Väderstad AB will be ongoing for three years and encompasses delivery of competence within construction, calculation, system development, production technique, software/hardware development and project management.

- This frame agreement proves that ALTEN's offer which includes resource competence as well as cutting edge knowledge and educations is strong. We are very proud over our collaboration with Väderstad AB which gives us the opportunity to take part of the exciting journey of developing methods and machines which contributes to a sustainable and efficient cultivation for farmers around the world, says Anders Persson CEO at ALTEN Sweden.
